# SUFFERING FOR THE Sins of Another

Blood Poison is an universal disease. The enlightened nations of the world, as well as the savage, have been contending with this monster scourge for centuries past. Civilization has not checked its progress. Scientists have discovered little concerning the character of this peculiar poison; they admit it to be a blood disease, for which they know no antidote or cure. Their Mercury and Potash preparations hide the symptoms, but cannot destroy the virus. This disease is so highly contagious that persons handling the clothing, using the same brush or towel, drinking from the same vessel, are inoculated. The deepest misery and humiliation have followed the kiss of affection. Though guilty of no wrong, the person who contracts the disease in this way endures the same physical suffering that the guilty one does. How often is the proud parent horrified when he finds the disease he so confidently believed had been forever driven from his own blood has been transmitted to his innocent child; its

little body tortured with sores, the glands of the neck swollen and knotted and the skin a-fire with some burning, itching eruption. The symptoms of this hideous disease cannot be mistaken; eruptions upon the skin, sores or ulcers in the mouth and throat, copper-colored splotches on different parts of the body and the loss of hair and eyebrows, are infallible signs of Contagious Blood Poison. Other and more destructive symptoms follow, of course, as the disease progresses; the whole skin surface is often covered with a mass of sores, and even bone and tissue are destroyed. This is not a simple disease; do not trifle with it; terrible as are the immediate effects it is hospible. as are the immediate effects, it is horrible

to think that through your carelessness or neglect others may have to suffer for your sin. You may have taken the usual remedies, but the aching bones and slight rheumatic pains, the annoying little ulcers and pimples that periodically break out, remind you that you are not cared; that the poison is still in your system.

S. S. S. is a specific for this disease. That it does antidote this peculiar virus, an experience of many years has proven beyond doubt. It is no experiment to take S. S. S. It has demonstrated in thousands of cases its curative powers. Being strictly a vegetable remedy makes it safe; there can be no bad after effect, as is the ease where Mercury and Potash treatment has been taken. It eradicates Contagious Blood Poison completely and permanently from the system and removes all possible danger of contaminating others or transmitting it

to posterity. It not only destroys the disease in the early stages, but even the worst cases give way when the system comes under the influence of S. S. Get this poison out of your blood; it is a barrier to domestic happiness; it wrecks both body and mind. Many a bright intellect has een clouded and happy life blighted by this terrible plague. If, unfortunately, you have contracted Contagious Blood

AN INNOCENT VICTIM.

Some sight years ago I was inoculated with poison by a nurse who infected my babe with blood taint. The little child lingered along until it was about two years old, when its little life was yielded up to the foarful poison. For six long years I have aunceed untold misery, I was covered with sores and ulcers from head to foot, and in my great extremity I prayed to die. No language can express my fellings of wos during these long years. I had the best medical treatment. Several physicians treated ma, but all to no purpose. The mercary and potash seemed to add fael to the swful flame which was devouring me. I was ad-

Poison, send for our book and learn all about this disease. Every symptom and stage is described so clearly and minutely that after reading it you can treat your own case successfully. Should you at any time need any special advice, you have only to write our physicians; we make no charge for this. SWIFT SPECIFIC CO., Atlanta, Ga.

OKLAHOMA PROSPERITY. General Conditions.

Mr. J. D. Harrison, chief cieric of the

Jacob Dold Packing company, returned Friday evening from a week's business trip through the Oklahoma country tribing account of general business, truffic, and crop conditions throughout all the country he traversed. Some sections need rain now, but very few are in distress-ing condition, and with rain room every county will be a great gainerly and store house of the most bountiful yield of farm products. Kay county especially, he says, is one vast garden. As to the buying capacity down there, he said it was a marvel. Where small express orders to his house used to be the rule, they are now ordering in car lots, and he took many large orders where not a word was said about price, terms or any such matters it was simply, "ernd me such a number of this article, or so many hunnumber of politicians and office seekers dred pounds of that, etc. The very name of Dold is a houseword down there, and Wm. M. Jenkins as governor of Okla-Irs Dold's, It's The Best," and "Made In Wichita," burned or stamped on every ecutive and get an estimate of how the Package or every piece of meat, is a stock political pie is to be distributed. The term. He brought back large orders and office of territorial secretary has been a political pie is to be distributed. The office of territorial secretary has been a busy place and many people have waited their turns in order to see the new governor and hold a little conference with him. A number of Kay county men were among the visitors and these men held the right of way in the secretary's office for some time. If today is any indication, Gov-elect Jenkins will have little time for ten days or more after the inauguration to attend to many business matters unless admiltance is denied the politicians for a time. The many candidates who want office are very anxious that the men who held the politicians for a time.

rury about his appointments.
